

Can you make a boat that floats? – Think of what materials you would need – look at the nature that is around you. Can your boat float – if you don't have access to a stream to test it, the sink or bath will do just as well. Talk about the materials – are they heavy or light.

CLL, KUW, Maths

Take a penny hike – Take a penny and flip it whenever you get to a junction. If it comes up heads you go left, or if it's tails you turn right. You can either keep going until you get back to where you started or you can give yourself a set time, after which you turn back and head home. KUW, PSE, Physical development.

Outdoor Planning Summer Week 2

Printing with vegetables

– Create your own pictures or repeating patterns using vegetables.

Expressive art and design

Woodland monsters –In the woods there may be magical or mythical monsters and waiting to be discovered or embellished. By adding twigs, grass, mud, moss children can make their own creatures too.

KUW, CLL.
