Appendix 3: acceptable use agreement (staff, governors, volunteers and visitors)	14
Appendix 4: online safety training needs – self-audit for staff	15

1. Aims

Our school aims to:

- Have robust processes in place to ensure the online safety of pupils, staff, volunteers and governors
- Identify and support groups of pupils that are potentially at greater risk of harm online than others
- Deliver an effective approach to online safety, which empowers us to protect and educate the whole school community in its use of technology, including mobile and smart technology (which we refer to as ‘mobile phones’)
- Establish clear mechanisms to identify, intervene and escalate an incident, where appropriate

The 4 key categories of risk

Our approach to online safety is based on addressing the following categories of risk:

- **Content** – being exposed to illegal, inappropriate or harmful content, such as pornography, fake news, racism, misogyny, self-harm, suicide, antisemitism, radicalisation and extremism
- **Contact** – being subjected to harmful online interaction with other users, such as peer to-peer pressure, commercial advertising and adults posing as children or young adults with the intention to groom or exploit them for sexual, criminal, financial or other purposes
- **Conduct** – personal online behaviour that increases the likelihood of, or causes, harm, such as making, sending and receiving explicit images (e.g. consensual and non consensual sharing of nudes and semi-nudes and/or pornography), sharing other explicit images and online bullying; and
- **Commerce** – risks such as online gambling, inappropriate advertising, phishing and/or financial scams

2. Legislation and guidance

This policy is based on the Department for Education’s (DfE’s) statutory safeguarding guidance, [Keeping Children Safe in Education 2024](#), and its advice for schools on:

- [Teaching online safety in schools](#)
- [Preventing and tackling bullying](#) and [cyber-bullying: advice for Headteachers and school staff](#)
- [Relationships and sex education](#)
- [Searching, screening and confiscation](#)

It also refers to the DfE’s guidance on [protecting children from radicalisation](#).

It reflects existing legislation, including but not limited to the [Education Act 1996](#) (as amended), the [Education and Inspections Act 2006](#) and the [Equality Act 2010](#). In addition, it reflects [the Education Act 2011](#), which has given teachers stronger powers to tackle cyber bullying by, if necessary, searching for and deleting inappropriate images or files on pupils’ electronic devices where they believe there is a ‘good reason’ to do so.

The policy also takes into account the National Curriculum computing programmes of study.

3. Roles and responsibilities

3.1 The governing board

The governing board has overall responsibility for monitoring this policy and holding the Executive Headteacher to account for its implementation.

The governing board will make sure all staff undergo online safety training as part of child protection and safeguarding training, and ensure staff understand their expectations, roles and responsibilities around filtering and monitoring.

The governing board will also make sure all staff receive regular online safety updates (via emails and staff meetings), as required and at least annually, to ensure they are continually provided with the relevant skills and knowledge to effectively safeguard children.

The governing board will co-ordinate regular meetings with appropriate staff to discuss online safety, requirements for training, and monitor online safety logs as provided by the designated safeguarding lead (DSL).

The governing board should ensure children are taught how to keep themselves and others safe, including keeping safe online.

The governing board must ensure the school has appropriate filtering and monitoring systems in place on school devices and school networks, and will regularly review their effectiveness. The board will review the DfE filtering and monitoring standards, and discuss with IT staff and service providers what needs to be done to support the school in meeting those standards, which include:

- Identifying and assigning roles and responsibilities to manage filtering and monitoring systems;
- Reviewing filtering and monitoring provisions at least annually;
- Blocking harmful and inappropriate content without unreasonably impacting teaching and learning;
- Having effective monitoring strategies in place that meet their safeguarding needs.

All governors will:

Ensure they have read and understand this policy

Agree and adhere to the terms on acceptable use of the school's ICT systems and the internet (appendix 3)

Ensure that online safety is a running and interrelated theme while devising and implementing their whole-school or college approach to safeguarding and related policies and/or procedures

Ensure that, where necessary, teaching about safeguarding, including online safety, is adapted for vulnerable children, victims of abuse and some pupils with special educational needs and/or disabilities (SEND). This is because of the importance of recognising that a 'one size fits all' approach may not be appropriate for all children in all situations, and a more personalised or contextualised approach may often be more suitable

3.2 The Executive Headteacher

The Headteacher is responsible for ensuring that staff understand this policy, and that it is being implemented consistently throughout the school.

3.3 The Designated Safeguarding Lead and DDSL

Details of the school's designated safeguarding lead (DSL) and deputy designated safeguarding leads are set out in our child protection and safeguarding policy, as well as relevant job descriptions.

The DSL and DDSL take lead responsibility for online safety in school, in particular:

- Supporting the Headteacher in ensuring that staff understand this policy and that it is being implemented consistently throughout the school
- Working with the Headteacher and governing board to review this policy annually and ensure the procedures and implementation are updated and reviewed regularly
- Taking the lead on understanding the filtering and monitoring systems and processes in place on school devices and school networks
- Working with the ICT manager to make sure the appropriate systems and processes are in place
- Working with the Ex Headteacher, ICT manager and other staff, as necessary, to address any online safety issues or incidents
- Managing all online safety issues and incidents in line with the school's child protection policy
- Ensuring that any online safety incidents are logged (see appendix 5) and dealt with appropriately in line with this policy
- Ensuring that any incidents of cyber-bullying are logged and dealt with appropriately in line with the school behaviour policy Updating and delivering staff training on online safety (appendix 4 contains a self-audit for staff on online safety training needs)
- Liaising with other agencies and/or external services if necessary
- Providing regular reports on online safety in school to the Headteacher and/or governing board
- Undertaking annual risk assessments that consider and reflect the risks children face
- Providing regular safeguarding and child protection updates, including online safety, to all staff, at least annually, in order to continue to provide them with relevant skills and knowledge to safeguard effectively

This list is not intended to be exhaustive

3.4 The ICT manager

The ICT manager is responsible for:

- Putting in place an appropriate level of security protection procedures, such as filtering and monitoring systems on school devices and school networks, which are reviewed and updated at least annually to assess effectiveness and ensure pupils are kept safe from potentially harmful and inappropriate content and contact online while at school, including terrorist and extremist material

- Ensuring that the school's ICT systems are secure and protected against viruses and malware, and that such safety mechanisms are updated regularly Conducting a full security check and monitoring the school's ICT systems on a monthly basis Blocking access to potentially dangerous sites and, where possible, preventing the downloading of potentially dangerous files Ensuring that any online safety incidents are logged (see appendix 5) and dealt with appropriately in line with this policy Ensuring that any incidents of cyber-bullying are dealt with appropriately in line with the school behaviour policy

At **SSQ Alex Chedgy** and **LF Oakford Technologies** are employed to ensure an appropriate level of security protection procedures, such as filtering and monitoring systems on school devices and school networks are robust. They work with the DSL to ensure school systems are safe for pupils and staff and ensure all are kept safe from potentially harmful and inappropriate content and contact online while at school, including terrorist and extremist material. Both meet regularly with the head teacher and DSL.

3.5 All staff and volunteers

All staff, including contractors and agency staff, and volunteers are responsible for:

- Maintaining an understanding of this policy
- Implementing this policy consistently
- Agreeing and adhering to the terms on acceptable use of the school's ICT systems and the internet (appendix 3), and ensuring that pupils follow the school's terms on acceptable use (appendices 1 and 2)
- Knowing that the DSL is responsible for the filtering and monitoring systems and processes, and being aware of how to report any incidents of those systems or processes failing by informing the DSL or DDSLs immediately. Should they not be available inform Oakford Technologies who will take immediate action.
- Following the correct procedures by informing the DSL or DDSLs if they need to bypass the filtering and monitoring systems for educational purposes
- Working with the DSL to ensure that any online safety incidents are logged (see appendix 5) and dealt with appropriately in line with this policy
- Ensuring that any incidents of cyber-bullying are dealt with appropriately in line with the school behaviour policy
- Responding appropriately to all reports and concerns about sexual violence and/or harassment, both online and offline, and maintaining an attitude of 'it could happen here'

This list is not intended to be exhaustive.

3.6 Parents/carers

- Parents/carers are expected to:
- Notify a member of staff or the Headteacher of any concerns or queries regarding this policy
- Ensure their child has read, understood and agreed to the terms on acceptable use of the school's ICT systems and internet (appendices 1 and 2)

- Parents/carers can seek further guidance on keeping children safe online from the following organisations and websites:
- What are the issues? – [UK Safer Internet Centre](#)
- Hot topics – [Childnet International](#)
- Parent resource sheet – [Childnet International](#)

3.7 Visitors and members of the community

Visitors and members of the community who use the school's ICT systems or internet will be made aware of this policy, when relevant, and expected to read and follow it. If appropriate, they will be expected to agree to the terms on acceptable use (appendix 3).

4. Educating pupils about online safety

Pupils will be taught about online safety as part of the curriculum:

The text below is taken from the [National Curriculum computing programmes of study](#).

It is also taken from the guidance [on relationships education, relationships and sex education \(RSE\) and health education](#).

All schools have to teach:

Relationships education and health education in primary schools

In Key Stage (KS) 1, pupils will be taught to:

- Use technology safely and respectfully, keeping personal information private
- Identify where to go for help and support when they have concerns about content or contact on the internet or other online technologies

Pupils in Key Stage (KS) 2 will be taught to:

- Use technology safely, respectfully and responsibly
- Recognise acceptable and unacceptable behaviour
- Identify a range of ways to report concerns about content and contact

By the end of primary school, pupils will know:

- That people sometimes behave differently online, including by pretending to be someone they are not
- That the same principles apply to online relationships as to face-to-face relationships, including the importance of respect for others online, including when we are anonymous
- The rules and principles for keeping safe online, how to recognise risks, harmful content and contact, and how to report them

- How to critically consider their online friendships and sources of information including awareness of the risks associated with people they have never met
- How information and data is shared and used online
- What sorts of boundaries are appropriate in friendships with peers and others (including in a digital context)
- How to respond safely and appropriately to adults they may encounter (in all contexts, including online) whom they do not know

The safe use of social media and the internet will also be covered in other subjects where relevant such as in PSHE lessons, Online Safety Week, Anti-bullying Week.

Where necessary, teaching about safeguarding, including online safety, will be adapted for vulnerable children, victims of abuse and some pupils with SEND.

5. Educating parents/carers about online safety

The school will raise parents/carers' awareness of internet safety in letters or other communications home, and in information via our website. This policy will also be shared with parents/carers.

Online safety will also be covered during parents' evenings.

The school will let parents/carers know:

What systems the school uses to filter and monitor online use

What their children are being asked to do online, including the sites they will be asked to access and who from the school (if anyone) their child will be interacting with online

If parents/carers have any queries or concerns in relation to online safety, these should be raised in the first instance with the Ex Headteacher and/or the DSL. Concerns or queries about this policy can be raised with any member of staff or the Head of School.

6. Cyber-bullying

6.1 Definition

Cyber-bullying takes place online, such as through social networking sites, messaging apps or gaming sites. Like other forms of bullying, it is the repetitive, intentional harming of 1 person or group by another person or group, where the relationship involves an imbalance of power. (See also the school behaviour policy.)

6.2 Preventing and addressing cyber-bullying

To help prevent cyber-bullying, we will ensure that pupils understand what it is and what to do if they become aware of it happening to them or others. We will ensure that pupils know how they can report any incidents and are encouraged to do so, including where they are a witness rather than the victim.

The school will actively discuss cyber-bullying with pupils, explaining the reasons why it occurs, the forms it may take and what the consequences can be. Class teachers will discuss cyber-bullying with their pupils.

Teaching staff are also encouraged to find opportunities to use aspects of the curriculum to cover cyber-bullying. This includes personal, social, health and economic (PSHE) education, and other subjects where appropriate.

All staff, governors and volunteers (where appropriate) receive training on cyber-bullying, its impact and ways to support pupils, as part of safeguarding training (see section 11 for more detail).

The school also sends information/leaflets on cyber-bullying to parents/carers so they are aware of the signs, how to report it and how they can support children who may be affected.

In relation to a specific incident of cyber-bullying, the school will follow the processes set out in the school behaviour policy. Where illegal, inappropriate or harmful material has been spread among pupils, the school will use all reasonable endeavours to ensure the incident is contained.

The DSL will report the incident and provide the relevant material to the police as soon as is reasonably practicable, if they have reasonable grounds to suspect that possessing that material is illegal. They will also work with external services if it is deemed necessary to do so.

6.3 Examining electronic devices

- Pupils are not permitted to use personal digital devices including mobile phones when attending school or on school trips and visits. The Ex Headteacher and any member of staff authorised to do so by the Headteacher, can carry out a search and confiscate any electronic device that they have reasonable grounds for suspecting:
- Poses a risk to staff or pupils, and/or
- Is identified in the school rules as a banned item for which a search can be carried out, and/or
- Is evidence in relation to an offence

Before a search, if the authorised staff member is satisfied that they have reasonable grounds for suspecting any of the above, they will also:

- Make an assessment of how urgent the search is, and consider the risk to other pupils and staff. If the search is not urgent, they will seek advice from the Headteacher /DSL/DDSL.
- Explain to the pupil why they are being searched, how the search will happen, and give them the opportunity to ask questions about it
- Seek the pupil's co-operation

Authorised staff members may examine, and in exceptional circumstances erase, any data or files on an electronic device that they have confiscated where they believe there is a 'good reason' to do so.

When deciding whether there is a 'good reason' to examine data or files on an electronic device, the staff member should reasonably suspect that the device has, or could be used to:

- Cause harm, and/or
- Undermine the safe environment of the school or disrupt teaching, and/or
- Commit an offence

If inappropriate material is found on the device, it is up to the staff member in conjunction with the DSL / Headteacher / other member of the senior leadership team to decide on a suitable response. If there are images, data or files on the device that staff reasonably suspect are likely to put a person at risk, they will first consider the appropriate safeguarding response.

When deciding if there is a good reason to erase data or files from a device, staff members will consider if the material may constitute evidence relating to a suspected offence. In these instances,

they will not delete the material, and the device will be handed to the police as soon as reasonably practicable. If the material is not suspected to be evidence in relation to an offence, staff members may delete it if:

- They reasonably suspect that its continued existence is likely to cause harm to any person, and/or
- The pupil and/or the parent/carer refuses to delete the material themselves

If a staff member suspects a device may contain an indecent image of a child (also known as a nude or semi-nude image), they will:

Not view the image

Confiscate the device and report the incident to the DSL (or equivalent) immediately, who will decide what to do next. The DSL will make the decision in line with the DfE's latest guidance on [screening, searching and confiscation](#) and the UK Council for Internet Safety (UKCIS) guidance on [sharing nudes and semi-nudes: advice for education settings working with children and young people](#)

Any searching of pupils will be carried out in line with:

- The DfE's latest guidance on searching, screening and confiscation
- UKCIS guidance on sharing nudes and semi-nudes: advice for education settings working with children and young people
- Our Behaviour Policy

Any complaints about searching for or deleting inappropriate images or files on pupils' electronic devices will be dealt with through the school complaints procedure.

6.4 Artificial intelligence (AI)

Generative artificial intelligence (AI) tools are now widespread and easy to access. Staff, pupils and parents/carers may be familiar with generative chatbots such as ChatGPT and Google. We recognise that AI has many uses to help pupils learn, but may also have the potential to be used to bully others. For example, in the form of 'deep fakes', where AI is used to create images, audio or video hoaxes that look real. Stanton St Quintin & Langley Fiturze School will treat any use of AI to bully pupils in line with our Anti-Bullying and school Behaviour Policy and AI Policy. Staff should be aware of the risks of using AI tools whilst they are still being developed and should carry out a risk assessment where new AI tools are being used by the school.

7. Acceptable use of the internet in school

All pupils, parents/carers, staff, volunteers and governors are expected to sign an agreement regarding the acceptable use of the school's ICT systems and the internet (appendices 1 to 3). Visitors will be expected to read and agree to the school's terms on acceptable use if relevant.

Use of the school's internet must be for educational purposes only, or for the purpose of fulfilling the duties of an individual's role.

We will monitor the websites visited by pupils, staff, volunteers, governors and visitors (where relevant) to ensure they comply with the above and restrict access through filtering systems where appropriate.

More information is set out in the acceptable use agreements in appendices 1 to 3.

8. Pupils using mobile devices in school

Pupils may bring mobile devices into school, but are not permitted to use them during the school day. Pupils who bring mobile devices including mobile phones to school must hand them in to the school office when they arrive at school and collect them from the school office at the end of the school day. They are not permitted to use them in:

- Lessons
- Clubs before or after school, or any other activities organised by the school

Any use of mobile devices in school by pupils must be in line with the acceptable use agreement (see appendices 1 and 2).

Any breach of the acceptable use agreement by a pupil may trigger disciplinary action in line with the school behaviour policy, which may result in the confiscation of their device.

9. Staff using work devices outside school

Staff work devices are to be used for work purposes only. All staff members will take appropriate steps to ensure their devices remain secure. This includes, but is not limited to:

- Keeping the device password-protected – strong passwords are at least 8 characters, with a combination of upper and lower-case letters, numbers and special characters (e.g. asterisk or currency symbol)
- Ensuring their hard drive is encrypted – this means if the device is lost or stolen, no one can access the files stored on the hard drive by attaching it to a new device
- Making sure the device locks if left inactive for a period of time
- Not sharing the device among family or friends
- Alex Chedgy/Oakford Technologies are responsible for installing anti-virus and anti-spyware software to all school devices. Oakford Technologies are responsible for keeping operating systems up to date by installing the latest updates USB sticks must not be used on work devices.

Staff members must not use the device in any way that would violate the school's terms of acceptable use, as set out in appendix 3. Work devices must be used solely for work activities. If staff have any concerns over the security of their device, they must seek advice from the Ex Headteacher and /or Head of School.

10. How the school will respond to issues of misuse

Where a pupil misuses the school's ICT systems or internet, we will follow the procedures set out in our policies on Behaviour and ICT and internet acceptable use. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident, and will be proportionate.

Where a staff member misuses the school's ICT systems or the internet, or misuses a personal device where the action constitutes misconduct, the matter will be dealt with in accordance with

the Staff Code of Conduct. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident.

The school will consider whether incidents that involve illegal activity or content, or otherwise serious incidents, should be reported to the police.

11. Training

All new staff members will receive training, as part of their induction, on safe internet use and online safeguarding issues, including cyber-bullying and the risks of online radicalisation.

All staff members will receive refresher training at least once each academic year as part of safeguarding training, as well as relevant updates as required (for example through emails, e-bulletins and staff meetings).

By way of this training, all staff will be made aware that:

- Technology is a significant component in many safeguarding and wellbeing issues, and that children are at risk of online abuse
- Children can abuse their peers online through:
 - Abusive, harassing and misogynistic messages
 - Non-consensual sharing of indecent nude and semi-nude images and/or videos, especially around chat groups
 - Sharing of abusive images and pornography, to those who don't want to receive such content
- Physical abuse, sexual violence and initiation/hazing type violence can all contain an online element

Training will also help staff:

- Develop better awareness to assist in spotting the signs and symptoms of online abuse
- Develop the ability to ensure pupils can recognise dangers and risks in online activity and can weigh up the risks
- Develop the ability to influence pupils to make the healthiest long-term choices and keep them safe from harm in the short term

The DSL and DDSs will undertake child protection and safeguarding training, which will include online safety, at least every 2 years. They will also update their knowledge and skills on the subject of online safety at regular intervals, and at least annually.

Governors will receive training on safe internet use and online safeguarding issues as part of their safeguarding training.

Volunteers will receive appropriate training and updates, if applicable.

More information about safeguarding training is set out in our child protection and safeguarding policy.

12. Monitoring arrangements

The DSL logs behaviour and safeguarding issues related to online safety. An incident report log can be found in appendix 5. This policy will be reviewed every year by the full Governing body. At every review, the policy will be shared with the governing board. The review (such as the one available [here](#)) will be supported by an annual risk assessment that considers and reflects the risks pupils face online. This is important because technology, and the risks and harms related to it, evolve and change rapidly.

13. Links with other policies

- This online safety policy is linked to our:
- Child Protection and Safeguarding Policy
- Behaviour Policy
- Staff Code of Conduct
- Data Protection Policy and Privacy notices
- Complaints Procedure ICT and Internet Acceptable use Policy
- Mobile Phone Policy
- AI Policy

Appendix 1: EYFS and KS1 acceptable use agreement (pupils and parents/carers)

Our Technology Rules

I will follow these rules to use computers, tablets and the internet safely at school. These rules help us all stay safe and have fun using computers and tablets at school!

Staying Safe

- My teacher will watch what I do on computers, tablets and the internet to keep me safe.
- I will keep my passwords secret and tell my teacher if I need help.
- I understand that people online are not always who they say they are. I will only talk to people online if my teacher or a trusted adult says it's OK.
- I will not share my name, address, or pictures without asking my teacher or a trusted adult first.
- If I see something that makes me feel worried or upset, I will tell my teacher or a trusted adult straight away.
- I will only use apps, games or websites my teacher says are safe.

Using Technology Kindly

- I will be kind when using technology, just like I am in real life.
- I will take care of the computers and tablets I use.
- I will only look at things my teacher says are OK.

Making Good Choices

- I will ask my teacher before I use someone else's pictures or work.
- I will take breaks from screens and do other fun things too.
- I know that I can say no / please stop to anyone online who makes me feel sad, uncomfortable, embarrassed or upset.

- I will ask for help from a trusted adult if I am not sure what to do or if I think I may have done something wrong.

What Happens If I Forget the Rules

- If I forget the rules, my teacher will help me learn to make better choices next time.

Signed (child):

Signed (parent):

Appendix 2: KS2 acceptable use agreement (pupils and parents/carers)

This acceptable use agreement is intended:

- to ensure that learners will have good access to devices and online content, be responsible users and stay safe while using digital technologies for educational, personal and recreational use
- to help learners understand good online behaviours that they can use in school, but also outside school
- to protect school devices and networks from accidental or deliberate misuse that could put the security of the systems and users at risk.

Acceptable Use Agreement

I agree to use the school's digital systems safely and responsibly to protect me, other learners and the school.

Keeping Safe Online

- The school will check how I use devices and the internet to keep everyone safe.
- I will keep my usernames and passwords private and tell a trusted adult if someone else knows them.
- I will be careful when talking to people online and will only talk to people I know and trust.
- I will not share personal information like my name, address, or photos without asking a trusted adult.
- I will only take or share images of myself, or others, when fully dressed.
- If I see or hear something online that worries or upsets me, I will tell a trusted adult straight away.
- I will only meet people I have spoken to online if a trusted adult is with me.

Using Computers and the Internet Sensibly

- I will only use devices, apps and sites that I am allowed to, and will check if I am unsure.
- I will always ask permission and check with a trusted adult before using someone else's work or pictures.
- I will make sure the information I find online is true by checking carefully.
- I will only use apps or tools, like AI, that my teacher has said are OK, and I will ask for help if I'm unsure.
- I will not copy or use music, videos, or games unless I have permission.
- I will tell a trusted adult about any damage to devices or if anything else goes wrong.

- I will check with trusted adults before clicking on any unexpected messages or links (even if these look as though they are from people that I already know).

Being Respectful and Responsible

- I will treat others kindly online, just as I do in real life.
- I will make good choices about what I share online to protect myself and others.
- I will spend a healthy amount of time using devices and make time for other activities too.
- I will always think about how my behaviour online could affect me, my friends, and my school.

What Happens If I Break These Rules?

- If I don't follow these rules, my teacher may stop me from using computers or devices, speak to my parents, or take other actions to help me make better choices in the future.

By following these rules, I can enjoy using technology safely and responsibly.

I have read and understand the above and agree to follow these guidelines when:

- I use the school systems and devices (both in and out of school)
- I use my own devices in the school (when allowed) e.g. mobile phones, gaming devices USB devices, cameras etc.
- I am out of school and involved in any online behaviour that might affect the school or other members of the school.

Appendix 3- Staff (and Volunteer) Acceptable Use Agreement

School Policy

Digital technologies have become integral to the lives of everyone, including children and young people, both within schools and in their lives outside school. The internet and digital technologies are powerful tools, which can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. The school has the right to protect itself and its systems and all users should have an entitlement to safe access to the internet and digital technologies at all times.

This acceptable use policy is intended to ensure:

- that staff and volunteers will be responsible users and stay safe while online and using digital technologies for educational, personal and recreational use
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk

- that staff are protected from potential risk in their use of technology in their everyday work.

The school will try to ensure that staff and volunteers will have good access to digital technology to enhance their work, to enhance learning opportunities and will, in return, expect staff and volunteers to agree to be responsible users.

Acceptable Use Policy Agreement

I understand that I must use school systems in a responsible way, to minimise the risk to the safety, privacy or security of the school community and its systems. I acknowledge the potential of digital technologies for enhancing learning and will endeavour to integrate them in a way that aligns with the school's policy, ethos and values.

For my professional and personal safety:

- I understand that the school will monitor my use of school devices and digital technology systems
- I understand that the rules set out in this agreement also apply to use of these devices and technologies out of school, and to the transfer of personal / sensitive data (digital or paper based) out of the school
- I understand that the school devices and digital technology systems are primarily intended for educational use and that I will only use them for personal or recreational use within relevant school policies. .
- I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password.
- I will store my passwords securely and in line with the school's relevant security policy.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.

I will be professional in my communications and actions when using digital technologies and systems:

- I will not access, copy, remove or otherwise alter any other user's files, without their express permission.
- I will communicate with others in a professional manner. I will not use aggressive or inappropriate language, and I appreciate that others may have different opinions.
- I will ensure that when I take and/or publish images of others I will do so with their permission and in accordance with the school's policy on the use of digital/video images and taking account of parental permissions. I will not use my personal equipment to record these images, unless I have permission to do so. Where these images are published (e.g. on the school website) it will not be possible to identify by name, or other personal information, those who are featured.
- I will only use social networking sites in the school in accordance with school policies.
- I will only communicate with learners and parents/carers using official school systems. Any such communication will be professional in tone and manner.
- I will not engage in any online activity that may compromise my professional responsibilities.

The school has the responsibility to provide safe and secure access to technologies and ensure the smooth running of the school:

- I will abide by all relevant guidance and legislation (e.g., Keeping Children Safe in Education / UK GDPR)
- I will ensure that I am aware of cyber-security risks and that I will not respond to any communications that might put my / school data or systems at risk from attack
- When using AI systems in my professional role I will use these responsibly and:
 - will only use AI technologies approved by the school
 - will be aware of the risks of bias and discrimination, critically evaluating the outputs of AI systems for such risks
 - to protect personal and sensitive data, I will ensure that I have explicit authorisation when uploading sensitive school-related information into AI systems
 - will take care not to infringe copyright or intellectual property conventions – care will be taken to avoid intellectual property, including that of the learners, being used to train generative AI models without appropriate consent.
 - ensure that documents, emails, presentations, and other outputs influenced by AI include clear labels or notes indicating AI assistance
 - critically evaluate AI-generated outputs to ensure that all AI-generated content is fact-checked and reviewed for accuracy before sharing or publishing
 - will use generative AI tools responsibly to create authentic and beneficial content, ensuring respect for individuals' identity and well-being
- When I use my personal mobile devices in school, I will follow the rules set out by the school, in the same way as if I was using school equipment. I will ensure that any such devices are protected by up-to-date anti-virus / anti-malware software and are free from viruses.
- When communicating in a professional capacity, I will only use technology and systems sanctioned by the school.
- I will not use personal accounts on school systems.
- I will exercise informed safe and secure practice when accessing links to content from outside of my organisation to reduce the risk of cyber security threats.
- I will ensure that my data is regularly backed up, in accordance with relevant school policies.
- I will not access illegal, inappropriate or harmful content on school systems.
- I will not bypass any filtering or security systems that are used to prevent access to such content.
- I will not install or attempt to install unauthorised programmes of any type on a school device, nor will I try to alter device settings, unless this is allowed in school policies
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will only transport, hold, disclose or share personal information about myself or others, as outlined in the school Data Security Policy (or other relevant policy). Where digital personal data is transferred outside the secure local network, it must be encrypted. Paper based documents containing personal data must be held in lockable storage.
- I understand that the data protection policy requires that any staff or learner data to which I have access, will be kept private and confidential, except when it is deemed

necessary that I am required by law or by school policy to disclose such information to an appropriate authority.

- I will immediately report any damage or faults involving equipment or software, however this may have happened.

When using digital technologies in my professional capacity or for school sanctioned personal use:

- I will ensure that I have appropriate permissions to use the original work of others in my own work and will reflect this with appropriate acknowledgements, particularly where AI has been used to generate content
- Where content is protected by copyright, I will not download or distribute copies (including music and videos).

I understand that I am responsible for my actions in and out of the school:

- I understand that this acceptable use agreement applies to my use of digital technologies related to my professional responsibilities, within or outside of the school.
- I will ensure my use of technologies and platforms is in line with the school's agreed codes of conduct.
- I understand that if I fail to comply with this acceptable use agreement, I could be subject to disciplinary action. This could include a warning, a suspension, referral to Governors and/or the Local Authority / Trust in the event of illegal activities, the involvement of the Police.

I have read and understand the above and agree to use the school digital technology systems (both in and out of the school) and my own devices (in the school and when carrying out communications related to the school) within these guidelines.
