

Equality Information 2018-19

Stanton St Quintin Primary School

Introduction

Stanton St Quintin Primary School is committed to ensuring that everyone is treated fairly and with respect as we want our school to be a safe and inspiring learning environment for all our pupils. This school recognises that people have different needs and we understand that treating people equally does not always involve treating everyone the same. Stanton St Quintin Primary School creates inclusive processes and practices where the varying needs of individuals can be identified and met. This document explains how we show our commitment to equalityⁱ for our school population and how we plan to tackle inequalities that may impact at school.

Celebrating our Successes

During the academic year 2017-2018 Stanton St Quintin Primary School's key areas of focus have been:

- All children thrive and achieve to the best of their ability and that gender stereotypes are minimised e.g. in the case of activities, toys, musical instruments or subjects that may be considered more girl or boy appropriate
- *increasing the involvement of girls/boys/under-represented groups in extracurricular activities/sport*
- *raising the attainment of all children in spellings, phonics and writing.*
- *increasing the understanding and confidence of pupils to recognise, address and report bullying - including the use of racist and anti-LGBT discriminatory language*
- *increasing pupils' knowledge and understanding of the different faiths and beliefs in Britain today, and supporting individual pupils in the development of their sense of identity and belonging*

Wiltshire Wide Priorities for the Year 2018/9

Sex (Gender) – Boys and Girls

The underachievement of boys compared with girls persists both nationally and in Wiltshire. Nationally the gap in 8 percentage points, which has remained the same as 2016 with 65% of girls achieving the expected standard in all of reading, writing and mathematics compared to 57% of boys.

Two thirds of the gender gap in achieving the expected standard in Reading at age eleven is attributable to the fact that boys have lower levels of language and attention at age five.

This school knows that intervention targeting early language and attention have potential for improving outcomes for all children. Boys benefit from such interventions because they are more likely to have these problems to begin with.ⁱⁱ

Minority Ethnic Pupils

Many minority ethnic groups of pupils do well but there are also groups where underachievement persists.

Very small numbers of minority ethnic pupils at Stanton St Quintin Primary School mean that individual pupil-targeted approaches must be used to identify both underachievement, and to celebrate successes. LA and national attainment data provides a valuable source of information to identify potential areas of concern.

Black Caribbean Pupils and Mixed White/Black Caribbean Boys

National and LA data has highlighted concerns about the attainment of Black Caribbean pupils and Mixed White/Black Caribbean boys. This national attainment gap has remained relatively constant for the last 30 years despite a range of initiatives.

Wiltshire Key Stage 2 data for 2017 shows lower attainment for these groups, and also for 'Black Other' and 'Black African' pupils. When and as appropriate Stanton St Quintin primary School will work closely with the LA to implement proven strategies to raise attainment during the primary school years.

Gypsy/Roma/Traveller Pupils

Gypsy/Roma and Irish Traveller pupils are the lowest achieving ethnic groups.

Nationally, 16% of Gypsy/Roma pupils and 20% of Irish Traveller pupils achieved the expected standard. While the overwhelming majority of Wiltshire Gypsy/Roma/Traveller pupils choose to attend primary school until the end of Year 6, it remains a concern that a majority of Wiltshire Gypsy/Roma and Traveller families choose to home educate their children during the secondary school years.

A House of Commons Briefing Paper (September 2017) reported that education issues for Gypsies and Travellers include prejudice, discrimination and discriminatory attitudes. The issues also include the schools' responses to discrimination, and high levels of self-exclusion from mainstream education because of discrimination.ⁱⁱⁱ

National research published in 2018 suggests there has been a significant increase in the number of Gypsy/Roma and Irish Traveller children who are being cared for by local councils. The data shows an increase of 900% for the numbers of Gypsy/Roma children and 400% for Irish Traveller children since 2009. One of the reasons suggested is that Gypsy/Roma and Traveller families are less likely to be offered or to access early help and support and this is important as it is an area in which schools are able to help.^{iv}

English as an Additional Language

Nationally, 62% of pupils for whom English is known to be their first language achieved the expected standard in the Key Stage 2 assessments. This compares with 61% of pupils for whom English is an Additional Language and 62 per cent for All Pupils.

For Wiltshire pupils, the attainment of pupils whose first language is other than English matched the national results with 61 per cent of pupils achieving the expected standard. There was an attainment gap of 3 percentage points between Wiltshire First Language English pupils and England First Language English pupils as only 59 per cent achieved the expected standard.

It should be noted that children with EAL have widely varying levels of English proficiency. Some children have no English and some are fluent multilingual English-speakers and may have lived in English-speaking countries or have been educated in English throughout their childhood. Attainment is also affected by first language; for example, there are significant differences between Tamil and Chinese speakers, who, on average, perform better than Pashto and Turkish speakers. In addition, prior education and arrival time impacts on attainment.^v The Wiltshire Ethnic Minority and Traveller Achievement Service advise on best practice for individual pupils to ensure those most vulnerable to poor attainment are to fulfil their academic potential.

Religion and Belief

Data is not collected for monitoring purposes on Religion and Belief, and so there is no information available to compare the attainment of pupils who have/or do not have a religion or a belief.

Stanton St Quintin Primary School recognises how important faith and belief can be as part of a young person's developing identity, whether this relates to a specific faith or belief, or whether this relates to wider belief systems, morals and ethics.

Stanton St Quintin Primary School is committed to supporting all our young people as they develop a personal relationship with their own values and beliefs, and to supporting, in the context of the Human Rights agenda, the role this plays in the moral and ethical choices they make in life.

This school takes incidents of prejudice-related bullying seriously and is committed to working closely with parents/carers to create a school environment which is nurturing, friendly and supportive for all our children. Our school has established a procedure for recording all incidents of prejudice-based bullying, and this includes bullying related to religion and belief. Comments from young people about bullying include the following, "Encourage and celebrate difference – don't single us out if we are different, have difficulties, or have different beliefs and views", the Wiltshire Anti-Bullying Charter. <https://www.wiltshirehealthyschools.org/core-themes/emotional-health-and-wellbeing/anti-bullying-practice/> This school is vigilant in maintaining an awareness of, and appropriate responses to, this possibility. [Name of school] is aware that negative faith-based media attention can have an impact on all children, and recognises the importance of ensuring that pupils are provided with accurate and appropriate information.

Stanton St Quintin Primary School ensures that all pupils gain knowledge of and respect for the different faiths in Britain as part of our role to prepare pupils for modern life in a diverse Britain. As part of a whole school activity, pupils celebrate different religious festivals and learn from religious representatives from various communities.

Stanton St Quintin Primary School recognises that discrimination on the grounds of religion or belief is a global concern. This school is aware that Islamophobia (discrimination or prejudice against people because they are Muslim or Jewish) is increasing and that it displays many of the same traits as racism. This school will continue its work to inform and actively promote acceptance and respect. Nationally, between 2015/6 and 2016/7 there was an increase of 37 per cent in the numbers of faith or belief based incidents reported to the Police either on school property or near to school property.^{vi}

Gender Identity and Sexual Orientation (LGBT)

Gender Identity remains a relatively new area for schools but this Protected Characteristic identifies a small section of society as vulnerable to discrimination and inequality. Gender Identity was

included in equality legislation for the first time in 2010, and many schools, parents, as well as wider society, are learning about the issues for the first time.

Schools in Wiltshire access expert advice and support from the LA; the charity Mermaids; as well as exchanging best practice with other schools. Stanton St Quintin Primary School recognises that Gender Identity is a complex area and that children, young people and their families are navigating an equality area where best practice is not fixed, and where the central advice is to be 'led by the child'.

This school is committed to ensuring that all our children feel safe while at school and that each child is given the chance to develop their unique identity with support from teaching and support staff, and their peers.

Pupils are taught that families come in many different forms and include single-parent; grandparent-led; same-sex parents; step-families; foster families; families who have adopted children; etc. Our pupils understand that although families can be very different, what matters is that everyone in a family loves and cares for each other.

To ensure that our pupils develop a positive view of people, regardless of their sexual orientation or gender identity, this school celebrates LGBT^{vii} History Month in February each year with a series of age-appropriate assemblies marking the contribution of significant figures (e.g. Alan Turing; Lily and Lana Wachowski; James Baldwin; Labi Siffre; Gok Wan; Jackie Kay).

This school recognises that negative views within wider society about LGBT+^{viii} people can have a detrimental effect on pupil wellbeing. Data from Childline and anecdotal information from CAMHS (serving Wiltshire children) show that increasing numbers of children in primary schools are raising issues relating to gender identity and sexual orientation. Gender Identity and sexual orientation are not mental health concerns but many of the referrals received by CAMHS for young people with issues related to their gender identity or sexual orientation are linked to bullying, isolation and internalised negative views about LGBT+ people, that in turn impacts on their emotional and mental health. This school recognises that pupils with these issues will need support from school-based counsellors/school support groups and national websites such as Young Minds. CAMHS is encouraging of primary schools who can provide such support to their pupils, as dealing effectively with these issues at a younger age appears to reduce the more serious mental health issues presented by some LGBT+ secondary school pupils.

There are many charitable organisations providing support on gender identity to young people, their families and to their schools. There are also organisations able to provide advice and support where a pupil has a parent who is transgender. The LA has up to date information about the different organisations, the services they provide and how to contact them.

Disability (Special Educational Needs and Disability)

SEN pupils are categorised as 'SEN with a statement or Education, health and care (EHC) plan' and 'SEN support'. In Wiltshire in 2017, 16% of pupils at the end of key stage 2 have a special educational need and 3% with a statement or education, health and care plan.^{ix}

Of all reported characteristics, pupils with SEN have the largest attainment gap when compared to those without any identified SEN.^x In 2017, 19% of Wiltshire pupils with SEN reached the expected

standard in all of reading, writing and mathematics, compared with 68% of Wiltshire pupils with no identified SEN, resulting in an attainment gap of 49 percentage points.^{xi}

Stanton St Quintin Primary School is required to publish information on the attainment of SEN pupils. The focus of this section of this Equality Information document is disability.

SEND Pupils and the link with Poverty

This school is aware that there is a strong link between poverty and disabilities that negatively impact on educational attainment.^{xii} Children from low-income families are more likely than their peers to be born with inherited special educational needs and disabilities (SEND), are more likely to develop some forms of SEND in childhood, and are less likely to move out of SEND while at school. Also, children with SEND are more likely than their peers to be born into poverty, and, in addition, more likely to experience poverty as they grow up.

Stanton St Quintin Primary School has made the achievement of pupils with SEND a whole school priority and is supported with expert advice from our SEND education specialists. Stanton St Quintin Primary School also knows that a strong partnership with parents/carers is important, and will continue to work collaboratively to support parents/carers as they seek to provide their children with a stimulating home-learning environment.

Pupils with Mental Health Concerns

There is an increasing understanding of the negative impact of social, emotional, and mental health difficulties (SEMH) on the educational attainment of pupils. The incorporation of mental health into the Equality Act 2010 has helped to highlight this important issue.

EQUALITY OBJECTIVES

Schools are required to update their published Equality Information each year, and in addition, must have **at least one Equality Objective** that the school can focus and work on for a period of up to four years. Below are some *suggested* Equality Objectives that you may wish to pursue. The suggested objectives have been developed to reflect current priorities, *however*, schools can choose an equality objective that meets the needs of their particular school community.

An objective is about change. It should be specific, measurable, achievable, relevant (realistic) and time-bound (SMART), expressed in terms of people and outcomes, and set towards achieving a long-term goal. This means objectives focus on outcomes - real, practical change that can be expressed in terms of improvements.

At Stanton St Quintin Primary School our new Equality Objectives for 2018-2019 will address:

- 1. Pupil mental health and wellbeing as part of our commitment to preventing mental health difficulties that may start in childhood, but have a greater impact in adult life.**
- 2. Equality Objective: English as an additional language: this school will ensure that families will have access to the same level of early help support as other families and, in partnership with the Ethnic Minority and Traveller Achievement Service, will work to develop trusting relationships with families in the best interest of our pupils.**
