

DIY Golf course – Create your own golf clubs and golf course in your garden and practice your golfing skills while having lots of fun.

CLL, Physical development, PSE.

Upside down seed investigation – Does it matter which way round a seed is planted? Let your child discuss this with you and draw out their ideas – no matter how unusual they are. The plant two broad bean seeds, one the right way up and one upside down and watch what happens. KUW, CLL.

Outdoor Planning Summer Week 1

Floating leaves – Collect different leaves and investigate which float best – why do you think that is? Talk about the texture and shape of the leaves. Have a leaf race or create a leaf snake and watch it travel down a stream. You can use the bath or sink and blow them along. KUW, CLL.
