

# Mr. Daniel Carter

I am married and have four sons ranging in age from 20 years to 6. My wife is also a teacher. We share our house with a mischievous Maltese terrier. We have recently moved to Wiltshire from Bath, though originally I am from Gloucestershire.

When not working, we enjoy travelling as much as we can. I am cricket mad and play, coach, watch or listen to as much as possible. As well as being a teacher, I enjoy a totally different career as an army reservist.

## Education

**BSc (Hons), P.G.C.E**

**M.Ed. , QTS**

Having gained a PGCE from UWE in Bristol I began my teaching career in Gloucestershire and have been teaching for 20 years. In 2015, I completed a Masters degree in Education from Bath University.

I have taught all age ranges in a variety of different school settings, including a British International school in Thailand.

## Why I became a teacher

I first stumbled into teaching whilst travelling the world as a TEFL teacher.

I soon realised that I had found a job which I not only enjoyed, but importantly, gave me great job satisfaction.

## My role at Stanton

I teach in Rhine Class three days of the week. I also oversee the curriculum areas of Computing and P.E. which are two areas of particular interest to me.

## Why I love working at Stanton

I started working at Stanton in September 2020. I wanted the experience of working in a smaller school after working in a few larger establishments. The size is a real selling point of the school, as you soon get to know everyone's name. It very much has a family feel. It also allowed me to take on greater responsibility and involvement, when you are working in a smaller school you have to wear lots of hats all at once.
